

# Modernisation A&E Paediatric Department Kings College Hospital

Kings College Hospital, part of Kings College Hospital NHS Foundation Trust, is a leading London Teaching Hospital serving an inner-city population of 700,000 in the London boroughs of Southwark and Lambeth but also serves as a tertiary referral centre in certain specialties in southern England.

King's is home to one of the UK's leading centres for children and has a dedicated critical care centre, day care unit, outpatient department and four inpatient wards.

King's A&E Paediatric Department was recently refurbished to provide modern and up-to-date facilities, that were designed with children and their carers in mind with the creation of a bright and vibrant

environment that is unique to the Department.

To achieve this contemporary, yet stylish look, the client selected SDS Dfendoor in grape with a flint frame, resulting in a stunning and effective contrasting finish, to achieve a playful and friendly environment that enhances patient experience and further assists to support wayfinding.

Dfendoor doorsets are incredibly resilient with enhanced infection control, and are ideal for high-traffic, high-wear environments.

**"We formed an instant client / supplier partnership with the SDS team. Their level of helpfulness and knowledge is outstanding, and it makes collaboration seamless.**

**Not only do they provide excellent products, but their lead times are also impressive."**
