light system available
where vision panel is
not required.

//

I would like to express my sincere appreciation for the quick turnaround time on the 30-minute lead lined door. SDS made the programme a reality, and it helped us meet some deadlines with the contractor and complete the project in record time. In addition, the doors look fantastic as well! Clearly demonstrating the excellent craftsmanship that goes into the work of your team at SDS.

Project Manager, leading Private Health Group
